Bouvet Island DXpedition –update

After over 10 years of dreaming and 2 years of rigorous planning, we have turned a page. Our team is intact and ready. We have 17,000 pounds of equipment. It has been tested, sorted, inventoried and packed into our 40-foot sea container. We have discussed all conceivable contingencies, including rough seas, clouds and fog, high winds and emergencies at sea and on shore. We have studied propagation, maximized our location on the island, selected the best radio equipment, and have thought first and foremost of safety. All of this culminated when we sealed our sea container on October 9th, entered it into customs bond, placed it on a truck and watched it begin its journey to Punta Arenas, Chile. Our die has been cast. Now, a new chapter begins: one of reflection, waiting anxiously and hoping (praying) that all will go well from this point on.

NCDXF major support for KH1 Baker Island DXpedition

The Northern California DX Foundation is pleased to announce it will be a major contributor to the [KH1 Baker Island DXpedition](#) planned for June 2018. Baker/Howland is #4 on the Club Log Most Wanted List now, but will be #3 after the upcoming Bouvet DXpedition.

In 2016, NCDXF-supported DXpeditions activated five of the ten most-needed entities. These DXpeditions put nearly 500,000 QSOs into DXers' logs! That year we spent \$156,000 to fund these and other DXpeditions. It is possible that the Bouvet and Baker DXpeditions could add another 200,000 QSOs to that number!

www.baker2018.net has details of the KH1 Baker DXpedition.
