DX NEWS

3Y0Z Bouvet Island –update

The call en route to Bouvet is 3G9A/MM aboard the MV Betanzos.

It's a long voyage from [King George Island](#), South Shetlands to Bouvet, so give the team a call. Find out how they are and pass any traffic/news you may hear.

Follow the voyage [here](#)

3G9A/MM via N200.

GL 3Y0Z team !

"We are happy to report that we are on schedule for a January 13 departure to Bouvet Island, the World's most isolated island and the number two most wanted DX entity. "All team members will meet in Punta Arenas, Chile no later than January 10. We will attend a one and one-half day marine safety course, purchase last minute supplies and then fly across the Drake Passage to King George Island in the South Shetlands. There, we will board the newly refurbished Chilean vessel M/V Betanzos, and begin our 9 to 11-day voyage to Bouvet". Their plans remain unchanged: "we will have two stations on every open band whenever humanly possible, gain and directional antennas where possible, high power stations and a propagation-driven operation. The primary modes will be CW, SSB and RTTY. FT8 will be utilized if it is the only productive mode. Anyone preparing to utilize FT8 must read the 3Y0Z FT8 protocol on the Band Plan page of the DXpedition website (www.bouvetdx.org)". QSL via Club Log's OQRS (<https://secure.clublog.org/logsearch/3Y0Z>) for either direct or bureau requests; traditional cards go via N200, direct (Bob Schenck, P.O. Box 345, Tuckerton NJ 08087-0345, USA) or bureau. You may include a donation with your OQRS QSL request on Club Log (via PayPal), or you may include additional funds with your direct mailed QSL card. As for LoTW, "we will be uploading to LOTW for everyone who requests a direct QSL card. These will be done in batches during our QSL card processing, as time allows. A full LOTW upload will be made about 6 months after the end of the DXpedition".

K3LP David Collingham S.K

Very sad news recently received. David Collingham, K3LP, is Silent Key.

David had been on over 70 DXpeditions, visited over 100 different DXCC entities, operating from 62 of them. He was a leader or co-leader on over 14 major DXpeditions. He was inducted as a member of the CQDX Hall of Fame in 2014. In addition, he activated Most Wanted DXCC Entities; 8 of the Top 10 and 16 of the Top 50. Over the last twenty years, he had supported numerous youth education and development projects, and youth sports.

May he R.I.P and thoughts to his wife Rebecca & family.

6060 Somalia –update

1. The KPA 500 W amp is unfortunately QRT. So one station will run barefoot.
2. We have moved the RX antenna away from hotel, as well we discovered the previous RX antenna had been cut by someone, explaining the low gain... hope new one will remain intact.

The DX-World team on the road....

The DX-World team going on DXpedition later this year.
Stay tuned for full details in coming weeks.

OC-105 Cagayan De Sulu <https://www.rsgbiota.org/info/search.php?q=OC105>

OC-174 Tawi Tawi <https://www.rsgbiota.org/info/search.php?q=OC174>

Dindu, DU1UD will be QRV as call/8 during the first or second quarter of 2018. OC-105 is the most wanted IOTA in the Philippines. He will also try to activate OC-174 during the same period. Length of stay depends on local conditions and safety. More to follow.

OC-128 Palawan Isl Jacek, SP5APW will spend his holidays on Palawan from March 13 until March 18 as DU1/call. Operation on 17 and 20 meter using mostly SSB. QSL via home call. <https://www.rsgbiota.org/info/search.php?q=OC128>

OC-179 Taumako Isl Cezar, VE3LYC plans to operate from Taumako Isl (Duff Islands) early May.

Update from Cezar on January 10:

My new passport arrived. The Solomon Islands radio license officer I am corresponding with be back in the office on January 15. I intend to purchase the plane tickets early next week. In order to account for possible delays in boat travel due to weather and sea conditions, I decided to arrive in Honiara a little earlier than originally planned. This will extend the overall trip by about a week, from 12 to 19 days. If the trip to Duff can be taken timely and everything there goes well, I will try to operate from one or two other IOTA groups in the area. If this happens, I will do my best to announce it on this website a little bit in advance. My overall plan is to operate from Temotu (H40) for 10 days, and from Solomon Islands (H44) for 3-4 days.
