DX NEWS

3Y0Z Bouvet Island –update January 16

Preparation for our departure continues, albeit at a somewhat slower pace than we had hoped. However, the vessel is now fully fueled and all our DXpedition gear, food, and medical and survival gear is aboard. And, you have likely read that team members completed their cold water survival, CPR, and fire-fighting training.

Two team leaders and our merchant marine captain team member (W7IV) have been aboard the vessel. They observed the crew and contractors working hard to complete their projects,

We are awaiting final clearance to sail which will be issued by the Chilean Navy, the regulatory authority for maritime safety.

We remain confident in our success and are anxiously waiting to get underway.

Whatever delay we encounter will not impact our results on the island.

Ralph – K0IR

Bob -- K4UEE

Erling -- LA6VM

E31A Eritrea 2018 –update

Zorro JH1AJT and team will commemorate the 2018 operation in memory of Dave, K3LP.

Tamako Island OC-179 Temotu –update by Cezar VE3LYC

Several significant developments occurred during the last few days, and I would like to update you on them below:

An operation from Russell Islands (OC-168, Solomon Islands DXCC) was added to the one already planned from Duff Islands (OC-179, Temotu DXCC). Russell Islands were last operated from in Feb 2001 or 17 years ago, and this IOTA group is in demand by about 94% of IOTA chasers. This addition extends the duration of the original project by a week and adds new logistical challenges. Full update on <https://dx-world.net/taumako-island-oc-179-temotu/>

KH1/KH7Z Baker Island DXpedition –update

The Dateline DX Association is pleased to announce major equipment support from Elecraft, DX Engineering, and SteppIR Communications Systems for its KH1/KH7Z Baker Island 2018 DXpedition.

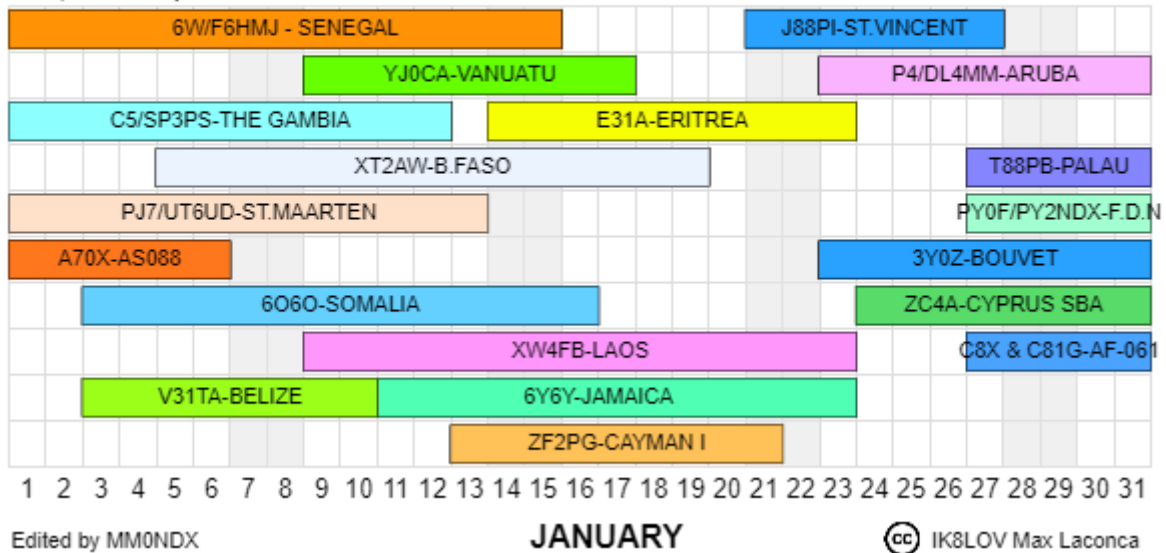

For the KH1/KH7Z operation, Elecraft will supply the highly reliable K3S transceivers and their matching KPA500 amplifiers. These radios are veterans of several highly successful major DXpeditions and will greatly aid our goal of many ATNO contacts.

OCEANIA

OC-042 Luzon Isl Chris, F4EBK will be operating from Baliuag City during February.

Activity on HF. QSL via home call. <https://www.rsgbiota.org/info/search.php?q=OC042>

OC-105 Cagayan De Sulu <https://www.rsgbiota.org/info/search.php?q=OC105>

OC-174 Tawi Tawi <https://www.rsgbiota.org/info/search.php?q=OC174>

Dindu, DU1UD will be QRV as call/8 during the first or second quarter of 2018. OC-105 is the most wanted IOTA in the Philippines. He will also try to activate OC-174 during the same period. Length of stay depends on local conditions and safety. More to follow.

OC-128 Palawan Isl Jacek, SP5APW will spend his holidays on Palawan from March 13 until March 18 as DU1/call. Operation on 17 and 20 meter using mostly SSB. QSL via home call. <https://www.rsgbiota.org/info/search.php?q=OC128>

OC-179 Taumako Isl Cezar, VE3LYC plans to operate from Taumako Isl (Duff Islands) early May.

Update from Cezar on January 10:

My new passport arrived. The Solomon Islands radio license officer I am corresponding with be back in the office on January 15. I intend to purchase the plane tickets early next week. In order to account for possible delays in boat travel due to weather and sea conditions, I decided to arrive in Honiara a little earlier than originally planned. This will extend the overall trip by about a week, from 12 to 19 days. If the trip to Duff can be taken timely and everything there goes well, I will try to operate from one or two other IOTA groups in the area. If this happens, I will do my best to announce it on this website a little bit in advance. My overall plan is to operate from Temotu (H40) for 10 days, and from Solomon Islands (H44) for 3-4 days.

<https://www.rsgbiota.org/info/search.php?q=OC179>

SOUTH AMERICA

SA-040 Rosario Isl <https://www.rsgbiota.org/info/search.php?q=SA040>

SA-093 Tutumate Isl <https://www.rsgbiota.org/info/search.php?q=SA093>

Martin LU9EFO and Camilo HK3TU will be operating as HK1/LU9EFO and HK3TU/1 from Rosario Islands and as HK4/LU9EFO and HK3TU/4 from Tutumate Island. Activity sometime in February from 160 to 6 meter. QSL via F4BHW.

SA-100 Pajaros Rocks A new attempt by IT9YRE and I1SNW activating SA-100 will take place in March. Exact dates not yet known. Maybe a special call will be used instead of CE1/calls. More to follow. <https://www.rsgbiota.org/info/search.php?q=SA100>

Antarctic base stations

Bellinghausen station Alex is QRV as RI1ANO until end March. Operation during his spare time on all bands using CW, SSB and digital modes. QSL via RN1ON, direct or bureau, OQRS Club Log. Also he will be active as RI50ANO until March 31, 2018. This to commemorate the 50th anniversary of the Bellinghausen Station. A special diploma is planned.
