### **VK9XT Christmas island –update**

The team has now changed and will consist of A65DC, A65DR & VE7HDW. Due to reduced team they will mainly operate on 40m and above. Possibly some 80m but not a priority. The new ham on Christmas Island (Doug, VK9JD) will help the team and may do some operating. They will start the DXpedition with an effort in CQWW RTTY.

### **VK9XG Christmas Island –update**

The 6Gs DXpedition team will be operating from Christmas Island (VK9X) in October 2018. Arriving on the island late on Tuesday 16th (local time), we hope to be operational by the evening of Wednesday 17th (1400z). Station tear-down will start on Monday 29th, but we hope to keep LF stations on the air until the morning of 30th October (0100z). The team is a little smaller this year with five operators. We welcome new member Tony (G2NF). The other four operators are Nigel (G3TXF), Chris (G3SVL), David (G3WGN) and Mike (G3WPH). Four of the team members operated together in 2011 from the other Christmas Island (T32) as part of the FSDXA T32C DXpedition.

### **The 3B7A story**

We are now back from Saint Brandon 3B7A since 4 months. Time has been spent getting all equipment back home, cleaning and packing everything. QSLs have been designed then printed and sent. LoTW has been uploaded. All these are the "main" tasks, but you can imagine there has been so many others.

According to all feedback we have received, everyone is happy and has appreciated our efforts. We hope you, as a "sponsor", are proud to be part of this success.

But pileups are never ending when the OJ0C callsign hits the airwaves.

<https://www.qrz.com/db/OJ0AM/>

The Finnish Lighthouse Society (FLS) and Amateur Radio League of Finland (SRAL) in conjunction with OH-DX-Foundation (OHDXF) and the DX University (DXU) are organizing a first-ever – INTERNATIONAL YOUTH AT SEA (IYAS) – cultural exchange based radio activity. This first-ever IYAS is observed by several international ham organizations and is a candidate for a permanent annual event.

In addition, they will become familiar with the latest digital modes and most important, learning how operating the radio efficiently: Providing OJ0C contacts – and handling the thundering pileups – with a smile by following long-established guidelines as set forth in DXpeditioning Basics from the DXU. Their instructors are those Market veterans: Martti, OH2BH, Henri, OH3JR and Pasi, OH3WS. OJ0C QSL via OH3JR
