XX9D Macao 2019 -update

So far so good: We are collecting and distributing the equipment we want to use in Macao, always having in mind that we have to minimize the freight-costs. By the way, most of the equipment is private property of the team-members. Thanks to our generous sponsors, foundations and individuals, we were able to complete our equipment with a new 2-element full-size wire beam for 10 to 20 meters. This antenna has been modified by LZ Antenna for our special expedition-purposes. That means low weight and easy to handle. We are looking forward using this antenna and are sure that it will perform well together with our new Pentaplexer from LBS. <https://xx9d.mydx.de/?News>
