DX NEWS

Mount Athos

As part of his obituary on Apollo (SV2ASP), Peter/KH6VP, mentions in the July edition of QST that Monk Jakovos/SV2RSG, a member of the Koutloumousiou monastery has now received permission to set up an amateur radio station on Mount Athos. This DXCC entity is currently listed as nr. 20 on the most wanted DXCC list.

CY9C St Paul Island –update

In less than two weeks the CY9C DXpedition team will arrive in Dingwall, Nova Scotia, in preparation for the DXpedition to St Paul Island. The dates for the DXpedition are July 31 – August 8th. All seven team members are ready with gear packed and weighed to help facilitate an efficient process of ferrying the gear to the island via helicopter.

The team is not employing a boat for this DXpedition as all operations will be from the Northeast Island. There are no longer any facilities for a boat to be able to dock at the Northeast Island with its foreboding cliffs and sharp rock formations that encompass the island. With that being the case, extra care must be taken to transport the generators and fuel by helicopter. <https://dx-world.net/cy9c-st-paul-island/>

WSJT-X: FT8 and beyond

Nobel Prize winner Joe Taylor, K1JT, explains how WSJT-X progresses, demonstrates its use, and what we have to expect in the near future. http://dokufunk.org/amateur_radio/contributions/?CID=9458#A28986

VU2PAI S.K –by Prasad VU2PTT

It is with a very heavy heart that I share the sad news that we have lost Ananth Pai, VU2PAI at the young age of 47 – well known businessman, loving family man, top DXer and Contester, avid traveller, my close friend and ham student. He was in a true sense a ham ambassador from India who met and made numerous friends (Hams and others) wherever he went around the world.

Tuvalu T2AR and T2R –update from Tony 3D2AG

“Through the kindness of some hams who sent me their FT8 monitoring logs, I have been able to reconstruct some of the lost FT8 T2AR logs of 5th July, and these will be uploaded to Club Log soon. Please note that Club Log is ONLY for FT8 logs and CW/SSB logs are on paper and QSLs can be requested directly through PayPal”.
