VP8PJ South Orkney Islands –update March 5

We are pleased to report that we are nearing 70,000 QSOs in the log. Our plan is to remain active on the bands throughout the day. We anticipate ending radio operations and going QRT at or near 23:59 UTC. Our attention overnight and tomorrow will be devoted to the large chore of packing the gear and then dismantling the camp. As stated previously, we will attempt an upload of the log once aboard the Braveheart as we prepare for departure from Signy Island.

9J2LA Zambia DXpedition -update March 4

Today we start our journey to 9J, Zambia. Many of the team members are already in Oslo and we will be gathering @Gardermoen airport for the final "re-packing party" early afternoon. I feel confident with the team, equipment, the lodge, bus transportation as well as a 5 KW backup generator is prepared at the QTH. Zambia is still experiencing power shedding so let us hope this will not be too much of a headache for the team.
